HAZMAT IQ

Above / Below the Line

January 17, 2019

COURSE DESCRIPTION:

The "HazMat IQ" course is designed to teach first responders to see immediate application of the material to their response world. The HazMat IQ system simplifies complex chemistry concepts into "need-to-know" essentials that can easily be used in the field in concert with laminated sheets called "Smart Charts."

The HazMat IQ system enables responders to safely and efficiently respond to any known or unknown chemical or mixture. Students taking this course will be able to size-up (physical state, hazards, initial hot zone, correct meters and PPE) any chemical in minutes. The system then coaches' responders through a streamlined chemical

research method to verify their initial size-up, preparing responders to immediately go to work when they arrive on a Hazardous Materials/WMD event.

INSTRUCTOR:

Cris Aguirre, Miami-Dade (Fla.) Fire Rescue Lt. (Ret)

Cris Aguirre is one of the co-founders of HazMat IQ. Before HazMat IQ, Aguirre devoted 35 years to emergency response for Miami-Dade (Fla.) Fire Rescue.

He served as a Hazardous Materials Specialist on Florida Task Force 1, was a member of the United Nations World Health Organization Chemical Safety Program to Developing Nations, and was a Master Instructor for the IAFF.

Where: Frank Hotchkins Memorial Training Center
Los Angeles Fire Department
1700 Stadium Way, Los Angeles Ca 90012

Time: 0900 hrs. to 1700 hrs. (1 Day Class)

Date: Thursday 01-17-19

Fee: ****FREE**** (RSVP Limited Space)

Certification

Certificate issued at the end of course
